### **FACILITIES DEVELOPMENT OBJECTIVES**

- ~~The expanding and changing educational program of the district~~
- ~~Standards of construction to assure that the facility is readily accessible to and usable by persons with disabilities~~
- ~~Relations with the total community, and projected developments in those relationships over the years~~
- ~~Plant and site aesthetics as they affect the education of pupils and feelings of people about their schools~~
- ~~Changing demographics of our district's population~~
- ~~Community planning and zoning requirements~~
- ~~Budget capabilities of the school district~~
- ~~Relationship between the projected new facilities and those already in existence~~
- ~~True economy reflecting full value for each tax dollar expended~~

The Superintendent of Schools is directed to establish such administrative arrangements as he/she may consider necessary to determine such needs. In so doing, the Superintendent may draw upon a wide range of resources including the area utility, commercial, industrial, and government entities, as well as the district staff and educational consultants.
