TRANSPORTATION

Students Transported in Vehicles Other Than Those Provided by the District

It is the parent's or guardian's responsibility (or the responsibility of the adult student age 18 or older) to provide transportation between educational sites when students opt to go from one educational site to another for educational reasons during the school day.

The District will permit students to travel between *educational* sites (with the exception described in the paragraph below) if the student's parent or guardian, or the adult student age 18 or older, signs the District's release of liability form (see EEAG-E, Release of Liability for Students Transporting Themselves In Town for Educational Purposes During the School Day).
