	POLICIES AND REGULATIONS	

SCHOOL/COMMUNITY/HOME RELATIONS

Commercial Activities

The School District recognizes the important link between schools and the local community and encourages the participation and support of business on behalf of public education. At the same time, the schools have an obligation to protect students' instructional time and to avoid giving unfair advantage to any one business or corporation.

Use of District property for commercial purposes is prohibited except as permitted by policy KF/KF-R and this policy.

Soliciting

No person will sell or offer for sale within school buildings or on school property any articles or services, except those approved by the Board, the Superintendent, or his/her designee.

Salespeople are prohibited from talking to instructional staff at any time during the school day. Salespeople representing educational companies may be granted this opportunity by making arrangements through the principal's office, at a time that will not interfere with the classroom work of the teacher.

Advertising

No notices or advertisements by or on behalf of persons not officially connected with the schools will be distributed in any school building except by permission of the Board, the Superintendent, or his/her designee. All notices, even by school personnel, will be cleared by the building principal and, in case of doubt, by the Superintendent or his/her designee.
